Hello!

Thank you for taking your time to check and consider my service as an Assistant Purchasing Manager. To help you decide if I am a good fit to your organization, kindly check these basic online requirements I have listed below for your reference.

PERSONALITY TESTS

TYPING TESTS

SPEED TEST

Above is my internet speed based on http://www.speedtest.net

HARDWARE SPECIFICATIONS

I currently have a dual monitor set-up with an Asus laptop attached to a secondary monitor that runs in Intel(R) Pentium(R) CPU N3530@GHz 2.16GHz with 8GB RAM Windows 10 Pro.

POWER INTERRUPTIONS

Power interruptions rarely occur in my area, approximately around once or twice a year and usually lasts not more than an hour. Also, they are scheduled so I am aware ahead if there will be a power outage in the next days. Should there be a sudden interruption, I have my back-up 4G mobile internet which allows me to open all necessary software for work and there are nearby cafes which cater fast internet 15-minutes walk away from my location.

If you'd still consider taking my service, I am available for long-term and short-term employment. I know there will be adjustments and challenges along the way, but if we both positively work together, I am certain we will be a great team. Thank you and looking forward to help you and your business thrive.
